## Building Owners Role and Responsibilities in the National Fallout Shelter Program

TO THE BUILDING OWNER

Please be advised that in conformance with the National Shelter Marking and Stocking Program your building has been designated as a Public Shelter Area having qualified as to protection against radiation with a capacity of fifty or more people. This survey was conducted by engineering firms under contract to the United States Army Corps of Engineers.

Enclosed herewith please find license forms and fact sheet which will explain in detail all facets of the program. Please complete in quadruplicate that part of the license form pertinent to grantor; location of structure; name of structure, if any; date signed; witnessed; and owner or designate and return to Boston Civil Defense Department, 115 Southampton Street, Boston 8.

Thank you for your every cooperation in this most important program.

Very truly yours,

Waldo Pisco,  
Deputy Director.
