Mr. Richard Sinnott
Mayor's Office
City Hall
Boston, Massachusetts

Dear Mr. Sinnott:

Please be advised that Alonzo B. Reed, Architects and Engineers, have received a contract from the United States Army Corps of Engineers to undertake the second phase of the Shelter Surveying and Marking Program known as Phase 1B in South Boston, Dorchester, and Hyde Park. This operation will require entrance to public and private buildings for the purpose of determining shelter protection factors for fifty or more people.

Any and all cooperation that your department may give to this national fallout shelter program will be appreciated.

Very truly yours,

Waldo Pisco
Deputy Director
